## Mental Calculation Policy

Horton Park Primary  

---

We Learn to Succeed

*September 2014*

**Reviewed** – September 2016

|   | <b>Recall:</b><br><b>Children should be able to derive and recall:</b>  | <b>Mental Calculation skills:</b><br><b>Working mentally, with jottings if needed, children should be able to:</b>   | <b>Mental methods or strategies:</b><br><b>Children should understand when to and be able to apply these strategies:</b>   |
|---|---|--|--|
| <b>Year 1</b>                           |   |  |  |
| Adding and subtracting pairs of numbers | <ul style="list-style-type: none"> <li>• Number pairs with a total of 10, e.g. 3+7, or what to add to a single-digit number to make 10, e.g. <math>3+\Delta=10</math></li> <li>• Addition facts for totals to at least 5, e.g. 2+ 3, 3+4</li> </ul> | <ul style="list-style-type: none"> <li>• Add or subtract a pair of single-digit numbers, e.g. 4+5, 8-3</li> <li>• Add or subtract a single-digit number to or from a teens number, e.g.13-5, 17-3</li> <li>• Add or subtract a single-digit to or from 10, and add a multiple of 10 to a single-digit number, e.g. 10+7, 7+30</li> </ul> | <ul style="list-style-type: none"> <li>• Reorder numbers when adding, e.g. put the larger number first</li> <li>• Count on or back in ones, twos or tens</li> <li>• Partition small numbers, e.g. <math>8+3=8+2+1</math></li> <li>• Partition and combine tens and ones</li> </ul> |

|   |   |   |  |
|---|---|---|--|
| Doubling numbers                        | <ul style="list-style-type: none"> <li>Addition doubles for all numbers to at least 10, e.g. <math>8+8</math></li> </ul>  | <ul style="list-style-type: none"> <li>Add near doubles, e.g. <math>6+7</math></li> </ul>   | <ul style="list-style-type: none"> <li>Partition: double and adjust, e.g. <math>5+6=5+5+1</math></li> </ul>  |
| Number sequences                        | <ul style="list-style-type: none"> <li>Odd and even numbers to 20</li> </ul>  | <ul style="list-style-type: none"> <li>Count on and back to 0 in ones, twos, fives or tens</li> </ul>   | <ul style="list-style-type: none"> <li>Use patterns of last digits, e.g. 0 and 5 when counting in fives</li> </ul>   |
| <b>Year 2</b>                           |   |   |  |
| Adding and subtracting pairs of numbers | <ul style="list-style-type: none"> <li>Addition and subtraction facts for all numbers up to at least 10, e.g. <math>3+4</math>, <math>8-5</math></li> <li>Number pairs with totals to 20</li> </ul> | <ul style="list-style-type: none"> <li>Add or subtract a pair of single-digit numbers including crossing 10, e.g. <math>5+8</math>, <math>12-7</math></li> <li>Add or subtract a single-digit number to or from a two-digit number, including crossing the tens boundary, e.g. <math>52-7</math></li> </ul> | <ul style="list-style-type: none"> <li>Reorder numbers when adding</li> <li>Partition: bridge through 10 and multiples of 10 when adding or subtracting</li> </ul> |
| Calculations using multiples of tens    | <ul style="list-style-type: none"> <li>All pairs of multiples of 10 with totals up to 100, e.g. <math>30+70</math>,</li> </ul>  | <ul style="list-style-type: none"> <li>Add or subtract any single-digit number to or from a multiple of 10, e.g. <math>60+5</math>,</li> </ul>  | <ul style="list-style-type: none"> <li>Partition and combine multiples of tens and ones</li> </ul>   |

|                             |   |   |   |
|-----------------------------|---|---|---|
|                             | <p>or <math>60 + \Delta = 100</math></p> <ul style="list-style-type: none"> <li>• What must be added to any 2-digit number to make the next multiple of 10, e.g. <math>52 + \Delta = 60</math></li> </ul> | <p><math>80 - 7</math></p> <ul style="list-style-type: none"> <li>• Add or subtract a multiple of 10 to or from any two-digit number, e.g. <math>27 + 60</math>, <math>72 - 50</math></li> <li>• Add 9, 19, etc or 11, 21, etc</li> </ul> | <ul style="list-style-type: none"> <li>• Use knowledge of pairs making 10</li> <li>• Count on in tens or ones to find totals</li> <li>• Count on or back in tens or ones to find the difference</li> <li>• Partition: add a multiple of 10 and adjust by 1</li> </ul>             |
| <p>Doubling and halving</p> | <ul style="list-style-type: none"> <li>• Addition doubles for all numbers to 20, e.g. <math>17 + 17</math> and multiples of 10 to 50, e.g. <math>40 + 40</math> and all corresponding halves</li> </ul>   | <ul style="list-style-type: none"> <li>• Double any multiple of 5 up to 50, e.g. double 35</li> <li>• Add near doubles, e.g. <math>13 + 14</math></li> <li>• Find half of even numbers to 40</li> </ul>                                   | <ul style="list-style-type: none"> <li>• Partition: double the tens and ones separately, then recombine</li> <li>• Partition: double and adjust</li> <li>• Use knowledge that halving is the inverse of doubling and that doubling is equivalent to multiplying by two</li> </ul> |

|  |   |  |   |
|--|---|--|---|
| <p>Multiplication and division facts</p>       | <ul style="list-style-type: none"> <li>• Multiplication facts for the 2, 5 and 10 times-tables and corresponding division facts</li> <li>• Odd and even numbers to 100</li> </ul> | <ul style="list-style-type: none"> <li>• Find the total number of objects when they are grouped into 2, 5 or 10</li> </ul>                                       | <ul style="list-style-type: none"> <li>• Use knowledge of multiplication facts from the 2, 5 and 10 times-tables, e.g. recognise that there are 15 objects altogether because there are 3 groups of 5</li> </ul>  |
| <p><b>Year 3</b></p>                           |   |  |   |
| <p>Adding and subtracting pairs of numbers</p> | <ul style="list-style-type: none"> <li>• Addition and subtraction facts for all numbers to 20, e.g. 17-9, drawing on knowledge of inverse operations</li> </ul>                   | <ul style="list-style-type: none"> <li>• Add and subtract groups of small numbers, e.g. 5-3+2</li> <li>• Add and subtract 2-digit numbers, e.g. 34+65</li> </ul> | <ul style="list-style-type: none"> <li>• Reorder numbers when adding</li> <li>• Partition: count on in tens and ones to find the total</li> <li>• Partition: count on or back in tens and ones to find the difference</li> <li>• Use knowledge that halving is the inverse of doubling</li> </ul> |

|  |   |   |  |
|--|---|---|--|
| <p>Calculations involving tens (and multiples of ten) and hundreds</p> | <ul style="list-style-type: none"> <li>• Sums and differences of multiples of 10, e.g. <math>50+80</math></li> <li>• Pairs of 2-digit numbers with a total of 100, e.g. <math>32+68</math></li> </ul> | <ul style="list-style-type: none"> <li>• Add or subtract a 2-digit number to or from a multiple of 10, e.g. <math>50-38</math></li> <li>• Multiply 1-digit or 2-digit numbers by 10 or 100, e.g. <math>46 \times 10</math></li> </ul> | <ul style="list-style-type: none"> <li>• Identify pairs totalling 10 or multiples of 10</li> <li>• Partition: add or subtract 10 or 20 and adjust</li> <li>• Recognise that when multiplying by 10 or 100 the digits move one or two places to the left and 0 is a place holder</li> </ul> |
| <p>Doubling and halving</p>  | <ul style="list-style-type: none"> <li>• Addition doubles for multiples of 10 to 100, e.g. <math>90+90</math> and corresponding halves</li> </ul>   | <ul style="list-style-type: none"> <li>• Add near doubles, e.g. <math>18+16</math></li> <li>• Double any multiple of 5 up to 100, e.g. double 35</li> <li>• Halve any multiple of 10 up to 200, e.g. halve 170</li> </ul>             | <ul style="list-style-type: none"> <li>• Partition: add, double or halve tens and ones separately then recombine</li> <li>• Partition: double and adjust</li> </ul>  |

|   |   |  |  |
|---|---|--|--|
| Time  |   |  | <ul style="list-style-type: none"> <li>Partition: count on or back in minutes and hours, bridging through 60 (analogue)</li> </ul>   |
| Multiplication and division facts                   | <ul style="list-style-type: none"> <li>Multiplication facts and corresponding division facts for 2, 3, 4, 5, 6, and 10 times-tables</li> </ul>  | <ul style="list-style-type: none"> <li>Find unit fractions of numbers and quantities involving halves, thirds, quarters, fifths and tenths</li> </ul>  | <ul style="list-style-type: none"> <li>Recognise that finding a unit fraction is equivalent to dividing by the denominator and use knowledge of division facts</li> </ul>  |
| <b>Year 4</b>                                       |   |  |  |
| Calculations involving tens, hundreds and thousands | <ul style="list-style-type: none"> <li>Sums and differences of pairs of multiples of 10, 100, 1000</li> <li>What must be added to any 3-digit number to make the next multiple of 100, e.g. <math>521 + \quad = 600</math></li> </ul> | <ul style="list-style-type: none"> <li>Add or subtract a near-multiple of 10, e.g. <math>56 - 29</math></li> <li>Add or subtract 2-digit or 3-digit multiples of 10, e.g. <math>140 + 170</math></li> <li>Multiply and divide numbers to 1000 by 10 and then 100,</li> </ul> | <ul style="list-style-type: none"> <li>Count on or back in hundreds, tens, ones</li> <li>Add or subtract a multiple of 10 and adjust, e.g. <math>56 - 29 = 56 - 30 + 1</math></li> <li>Use knowledge of place value and related calculations,</li> </ul> |

|  |   |   |  |
|--|---|---|--|
|  |   | <p>e.g. 850 divided by 10</p> <ul style="list-style-type: none"> <li>• Multiply a multiple of 10 to 100 by a single digit number , e.g. <math>40 \times 3</math></li> </ul> | <p>e.g. <math>140 + 150 = 290</math> using <math>14 + 15 = 19</math></p> <ul style="list-style-type: none"> <li>• Use understanding that when a number is multiplied or divided by 10 or 100, its digits move one or two places to the left of the right and 0 is used as a place holder</li> <li>• Use knowledge of multiplication facts and place value, e.g. <math>7 \times 8 = 56</math> to find <math>70 \times 8</math> or <math>7 \times 80</math></li> </ul> |
| Adding and subtracting 2-digit numbers | <ul style="list-style-type: none"> <li>•</li> </ul> | <ul style="list-style-type: none"> <li>• Add or subtract any pair of 2-digit numbers, including crossing the tens and 100 boundary, e.g. <math>47 + 58</math></li> </ul>    | <ul style="list-style-type: none"> <li>• Partition: add tens and ones separately and recombine</li> <li>• Partition: subtract tens and then ones, e.g. subtracting 27 by subtracting 20 then 7</li> </ul>  |

|                                   |   |  |   |
|-----------------------------------|---|--|---|
|                                   |   |  | <ul style="list-style-type: none"> <li>• Subtract by counting up from the smaller to the larger number</li> </ul>   |
| Doubling and halving              | <ul style="list-style-type: none"> <li>• Doubles of multiples of 10 and 100 and corresponding halves</li> <li>• Addition doubles of numbers 1 to 100, e.g. <math>38+38</math> and the corresponding halves</li> </ul> | <ul style="list-style-type: none"> <li>• Halve any even number to 200</li> <li>• Add near doubles of 2-digit numbers, e.g. <math>38+37</math></li> </ul>                             | <ul style="list-style-type: none"> <li>• Partition: double/halve tens and ones separately, recombine and adjust</li> </ul>  |
| Time                              |   |  | <ul style="list-style-type: none"> <li>• Partition: count on or back in minutes and hours, bridging through 60 (analogue and digital)</li> </ul>                        |
| Multiplication and division facts | <ul style="list-style-type: none"> <li>• Multiplication facts to <math>10 \times 10</math> and the corresponding division facts</li> <li>• Factor pairs for known multiplication</li> </ul>                           | <ul style="list-style-type: none"> <li>• Multiply numbers to 20 by a single digit, e.g. <math>17 \times 3</math></li> <li>• Identify remainders when dividing by 2, 5, 10</li> </ul> | <ul style="list-style-type: none"> <li>• Use partitioning and the distributive law to multiply, e.g. <math>13 \times 4 = (10 \times 4) + (3 \times 4)</math></li> </ul> |

|                                     |   |   |   |
